<p>Hello. My name is Lilit, and I'm from Armenia. My question is, what is your idea for a movie? At some point in our lives, we've all <b>come up with</b> a plot, which we think would be fantastic for a movie. And my idea is for a horror movie, which I think would be called suspense.</p> <p>So it wouldn't really be a horror movie because there won't be much <b>going on</b> in the movie. However, there will constantly be background music which will <b>lead to</b> people thinking and anticipating that something bad is going to happen, when in reality there will not be anything. So there will be <b>spooky</b> music which will just intensify the feeling of suspense and shock. But then, the movie will just end like that without anything happening. And it will leave the audience just <b>hanging</b> there thinking what was the movie about? Why were they scared when there was nothing scary about it at all?</p>	<p>cause   happening   think of   scary   waiting  </p> <p>There are many events _____ recently.</p> <p>Don't leave me _____ !
